

Personal Information

Name: Jikai Shi Career Objective: Mathematics Teacher
Email: 202411079123@mail.bnu.edu.cn Phone: 134-3088-6102
Address: No.18, Jinfeng Road, Tangjiawan, Zhuhai City, Guangdong Province, P.R.China

Education Background

Beijing Normal University Undergraduate Mathematics September 2024 - July 2028
(Government-sponsored Normal University Students)

- Main Courses:** Mathematical Analysis (83), Ordinary Differential Equations (91), Pedagogy (89), Python (96), etc.
- Positions Held:** Staff Member of the Organization Department of Leyu College Youth League Committee (organized student group registration materials, reviewed practice reimbursement documents, served as event staff for entrance exams and award ceremonies), Vice President of Table Tennis Club, **Commissary in Charge of Publicity** (published over ten articles), Staff Member of the Text Editing Department of the Media Center
- Honors and Awards:** Third-Class Jingshi Scholarship, Second-Class Scholarship for Academic Achievement

Practical Experience

- Volunteer Teaching "Cloud Companionship" for Tibet Support** March 2025 - August 2025
Addressed the lack of educational resources in Tibet by teaching fifth-grade mathematics online. Taught **20 lessons**, documented "Cloud Bridge Volunteer Records" and "Student Growth Portfolio". Students' final average score **increased by approximately 15 points**, received unanimous recognition from parents.
- No. 2 Senior High School of Yanhe Tujia Autonomous County, Guizhou Province** June 2025 - July 2025
Served as an intern mathematics teacher and homeroom teacher, **taught 5 lessons**, independently completed 5 lesson plans, organized 2 unit tests, graded 60+ exam papers. Supervisor's evaluation: **"Well-structured lesson plans, clear classroom organization, strong sense of teaching responsibility."**

Awards and Honors

Second Prize in "Green Bamboo" Class Teacher Skills Competition December 2025

- Participated in designing **Class Management and Education Strategies** and **Theme Class Meeting Design**
- Represented the team in a "3-minute scenario simulation", accurately and quickly identified the root causes of **parent-school communication problems**, efficiently completed on-site responses

Provincial Third Prize in National College Mathematics Competition (Mathematics Category A) November 2025

- Focused on core topics including analytic geometry, linear algebra, and mathematical analysis
- Mastered key modules such as vector operations, linear operators, and integral inequality proofs

Provincial Third Prize in National College Mathematical Contest in Modeling September 2025

- Responsible for modeling, programming, and paper writing
- Analyzed **NIPT (Non-invasive Prenatal Testing)** data for core issues related to maternal and fetal testing
- Constructed **Linear Mixed Models**, **Improved Canopy-Kmeans**, and **CART Decision Trees** to analyze fetal Y chromosome concentration, determine optimal testing time points, and identify abnormal female fetuses. Authored paper *"Analysis of NIPT Timing Selection and Maternal/Fetal Risk"*, awarded Provincial Third Prize.

Professional Skills

- Putonghua Proficiency Level 2-A, CET-6 Score 507
- Proficient in Microsoft Office, as well as professional software such as LaTeX, MATLAB, Maple, VScode
